### **Rancho Murieta Association activity:**

We continue to work with the RMA Leadership on a regular basis. Our focus is to improve our level of service while attempting to live within the budget as much as possible. We have stressed with our Gate and Patrol Officers the need to follow their training and to stay safe. If there are incidents where there is a safety concern, they notify Security Dispatch to call the Sacramento Sheriff's Department. The following list is the current focus of our meetings.

- General calls for service
- Golf Carts and underage driver enforcement
- General non-architectural enforcement
- Stop Sign enforcement –during patrol checks and as requested by citizens
- Speed enforcement – establishing standard missions and as requested by citizens
- Fire Safety issues for Quick Access in the South areas: Sgt. Tompkins assessed area, marked key points for entry access and 4 checkpoints in the back area with longitude and latitude points; turned over to Coordinator at ABDI for mapping. Developing final checkpoint signs to be installed when mapping is completed.

### **Murieta Village activity:**

- Village entry cameras: under contract to run electrical to poles. Paul Siebensohn, Director of Field Operations, is managing the project.
- Regular patrol activity

- Various medical calls for service

#### **Rancho Murieta Commercial Owners Association activity:**

- Installing two surveillance cameras on Murieta Drive delayed: under contract to run electrical to the poles. Mr. Siebensohn is managing the project
- Set up a meeting with the associations South of the Highway: meeting TBA in early January
- Reinstating program for issuing County citations for parking, handicap, and fire zone violations: setting up a meeting with SSD for updates on county citations and fees schedule

#### **Incidents of Note**

December 2, 2020 at 12:37 p.m. Bel Air reported a number of potted roses were stolen from the parking lot. The potted roses were replacing dead and dying flowers in the parking lot. A patron of the store took photos of the vehicle in question, a Honda Odyssey van with the license plate obscured so that it was hard to read. The vehicle did not have a barcode sticker on it in the pictures. The photos will be distributed throughout the patrol officers and attempt to locate the vehicle. Vehicle was possibly passing through the area.

December 3, 2020 at 10:45 a.m. Patrol observed a break in the buoy line at Chesbro. Water supervisor was notified then video was reviewed. Video review showed that an Otter chewed through the rope at approximately 10:41 p.m. and then swam across in front of the camera. Results passed onto Water Department.

December 6, 2020 at 10:51 p.m. Patrol received a call for an overturned golf cart on Murieta Parkway at De La Cruz. They made contact with golf cart driver who informed me, that while driving on parkway, a deer jumped in front of golf cart from the bushes. Driver made an attempt to avoid collision and overturned her golf cart. Driver did not suffer any injuries. Golf cart did not sustain any damages. Animal was not injured.

December 7, 2020 at 8:28 a.m. Patrol responded to the report of a damaged lock in the front door of a business. A neighboring business reported damage to the front door lock of the Buona Vita yogurt shop. Upon arrival Patrol discovered that there was forced entry into the shop and that there was extensive prybar damage to the front door. CSD Dispatch attempted to contact the owners but were unable to. CSD dispatch contacted Sacramento county Sheriff's department on behalf of the absent owner.

December 7, 2020 at 9:36 a.m. Follow up on earlier vandalism call. Vandalism turned out to be a burglary and the Sheriff's department was contacted for a report.

December 11, 2020 at 7:47 a.m. Patrol responded to that report of vandalism and theft at the new construction on Cantova way. Upon arrival, Patrol made contact with employees. Employees stated that an unknown subject/subjects had entered one of the new warehouses, kicked a hole through the wall into a secured neighboring room. In the process the subjects damaged metal studs in the wall. The only reported loss was a portable heater and propane tank. The heater was a forced air induction heater, valued at \$275.00. The subject/subjects entered the building near the airport storage gate which has cameras. Patrol reviewed the airport cameras with staff to see if they have video of the subjects entering the building. The victim stated that they last check the property on Thursday, December 10 at approximately 6:00 p.m. and returned on Friday, December 11 at 6:00 a.m. Upon video review of the airport storage camera, two subjects on a golf cart arrived at 1814 hrs. with flashlights. The two subjects exited the cart went directly into the building where the theft occurred and exited two minutes later carrying a heavy object assumed to be the stolen heater. SSD was contacted by CSD patrol and all information was forwarded to them for the report and follow-up.

December 25, 2020 at 12:17 p.m. Patrol was dispatched to the report of an abandoned vehicle below the normal water line, in Lake Calero. Patrol arrived and made contact with the Chief Plant Operator Travis Bohannon. The abandon vehicle was a white Toyota four-wheel-drive truck California license plate. The vehicle was dangerously close to being submerged in water and was sitting on soft soil that is normally underwater. The truck posed a serious Contamination issue with the drinking water for Rancho Murieta. The location of the vehicle was outside the HOA boundaries but within the Rancho Murieta community services district boundaries. Sgt. Tompkins contacted CHP and requested assistance from their agency. A CHP officer was dispatched along with a rotational tow from there tow list. CHP was going to remove the vehicle and store it as an abandoned vehicle, in order to get the vehicle removed as soon as possible to reduce or eliminate contamination issues with the water. While CHP and their tow were on scene, the owner showed up with their own AAA tow truck. CHP had to release the vehicle over to the owner and allow their tow truck to remove the vehicle. The vehicle was safely removed from the basin mud and the area was thoroughly inspected by a CSD water department employee and the Chief Plant Operator. The inspection revealed that the vehicle did not leak any contaminants into the mud. No citation was issued due to the geographical location of the vehicle. The vehicle was outside association boundaries and CSD has no ordinance or authority in place to cite for the issue at hand.

Upon arrival the reporting party stated that they were in the garage heard the sound of a trashcan being hit and looked up to see a younger child sliding across the sidewalk with the vehicle going by. Their initial response was the vehicle struck the child. By the time patrol arrived it had been determined that the child miss judged the distance passing the trash can, striking the can, throwing themselves to the ground. It was completely coincidental that the vehicle was passing by at the same moment.

Patrol arrived, made contact with water department supervisor Travis Bohannon. The abandon vehicle was a white Toyota four-wheel-drive truck California license plate. The vehicle was dangerously close to being submerged in water and was sitting on soft soil that is normally underwater. The truck posed a serious Contamination issue with the drinking water for Rancho Murieta. The location of the vehicle was outside the HOA boundaries But within the Rancho Murieta community services district boundaries. Sgt Tompkins contacted CHP and requested assistance from their agency. A CHP officer was dispatched along with a rotational tow from there tow list. CHP was going to remove the vehicle and store it as an abandoned vehicle In order to get the vehicle removed as soon as possible to reduce or eliminate contamination issues with the water. While CHP and their tow, LJ Towing, was on scene the owner showed up with another tow truck, Rory's towing AAA. CHP had to release the vehicle over to the owner and allow their tow truck to remove the vehicle. The vehicle was safely removed from the basin mud and the area was thoroughly inspected by CSD water department employee and supervisor. The inspection revealed that the vehicle did not leak any contaminants into the mud. No citation was issued due to the geographical location of the vehicle. The vehicle being outside association boundaries and CSD has no ordinance or authority in place to cite for the issue at hand.</p> <p>CHP log # 253</p>

SSD was called and in route although extended asked patrol to stop by the residence and check on her. SSD was an estimated hour away from arriving. Upon arrival CSD Patrol could see that the house appeared empty as if the residents had moved out but could hear a dog barking inside the house. Patrol knocked on several doors with no response. Patrol checked the exterior of the house finding several doors partially open. Patrol got to the rear of the house and could hear a TV playing and a dog barking. Patrol knocked on the door of that room and did eventually make contact with XXXX XXXX, elderly female slightly unsteady on her feet. Ms. XXXX was advised that there was concern for her health however she stated she was OK. Ms. XXXX was slow to speak and acted somewhat confused but was able to answer basic questions, although the answers came very slowly. Due to prior medical calls at that residence for similar situations SSD was advised of her condition and that there may be pending reports with adult protective services.</p>

## MEMORANDUM

Date: December 29, 2020  
To: Security Committee  
From: Tina Talamantes, Interim Security Chief  
Subject: Consider Adoption of District Policy P2021-01, Custodian of Records Policy

---

### RECOMMENDED ACTION

Adopt District Policy P2021-01, Custodian of Records.

### BACKGROUND

All applicants being considered for employment with the District are required to submit to background check before being hired. This background check includes a California Department of Justice (Cal DOJ) Fingerprint check and a California Department of Motor Vehicles driver's license review. Due to confidentiality requirements, the District is required to gain approval from Cal DOJ for one or more of our employee's to be certified to receive and review the reports. This policy establishes the duties of the agency Custodian of Records and meets the requirements of the Cal DOJ , Criminal Offender Record Information (CORI) Division.

The Custodian of Records is responsible for the security, storage, dissemination and destruction of the criminal records furnished to the agency and will serve as the primary contact for the DOJ.

The overall responsibility for the administration of this policy will rest with the General Manager or their designee.

### SUMMARY

Upon approve of the Security Committee, this policy will be on the agenda for the regular Board meeting scheduled for January 20,.

# RANCHO MURIETA COMMUNITY SERVICES DISTRICT

<b>Category:</b>	<b>Security</b>	<b>Policy # P2021-01</b>
<b>Title:</b>	Custodian of Records	

## PURPOSE

The purpose of this policy is to establish the duties of the agency Custodian of Records and meet the requirements of the State of California, California Department of Justice (DOJ), Division of California Justice Information Services, for any agency that receives Criminal Offender Record Information (CORI).

The Custodian of Records is responsible for the security, storage, dissemination and destruction of the criminal records furnished to the agency and will serve as the primary contact for the DOJ.

The overall responsibility for the administration of this policy rests with the General Manager.

## BACKGROUND

Penal Code sections 11105 and 13300 identify who may have access to criminal history information and under what circumstances it may be released.

The DOJ maintains the California Law Enforcement Telecommunications System (CLETS) that provides law enforcement agencies with information directly from federal, state, and local computerized information files. However, restrictions have been placed on the user to ensure that the rights of all citizens of California are properly protected.

Article 1, section 1 of the California Constitution grants California citizens an absolute right to privacy. Individuals or agencies violating these privacy rights place themselves at both criminal and civil liability. Laws governing Californians' right-to-privacy were created to curb, among other things, the excessive collection and retention of personal information by government agencies, the improper use of information properly obtained for a proper purpose, and lack of a reasonable check on the accuracy of existing records. {White v. Davis (1975) 13 Cal. 3d 757,775.}

### Employment Background Checks:

It is only through the submission of fingerprints to the DOJ that the true identity of an individual can be established. In a 1977 lawsuit (Central Valley v. Younger), the court ruled that only arrest entries resulting in conviction, and arrest entries that indicate active prosecution, may be provided for evaluation for employment, licensing, or certification purposes.

## **POLICY STATEMENT**

The Custodian of Records is responsible for the security, storage, dissemination and destruction of the criminal records furnished to the agency and will serve as the primary contact for the DOJ.

The overall responsibility for the administration of this policy rests with the General Manager.

The Rancho Murieta Community Services District (RMCS D) will notify the DOJ regarding any change of agency name, address, telephone number, fax number, Custodian of Records, and contact person. The RMCS D will send an updated Live Scan Subscriber Agreement form to the DOJ signed by our agency official, when applicable.

## **CUSTODIAN OF RECORDS (COR)**

The General Manager or their designee, is designated as the Custodian of Records for the RMCS D.

## **CUSTODIAN OF RECORDS DUTIES**

1. The information provided by the Department of Justice (DOJ) to this agency is confidential and shall not be disseminated to any other person or agency not authorized by law. A violation of this section is a misdemeanor (Penal Code section 11142). However, the requesting agency may provide a copy of the DOJ applicant response to the subject of the record.
2. The COR shall ensure that all personnel/individuals with access to CORI will have a signed "Employee Statement Form" on file acknowledging an understanding of laws prohibiting its misuse. (See Employee Statement Form)
3. Training: The COR shall ensure that all personnel/individuals with access to CORI will be trained in the secure handling, storage, dissemination, and destruction of CORI. Staff with access to criminal offender record information shall receive training and counseling on the handling of criminal offender record information and have signed employment statement forms acknowledging and understanding of the criminal penalties for the misuse of criminal offender record information (Penal Code sections 502, 11142, and 11143).
4. Record Storage: The information provided by the DOJ will be maintained in a secured area/locked cabinet separate from the employees personnel file and be used only for the purpose for which it was acquired.
5. Record Security: Any questions regarding the release, security and privacy of CORI are to be resolved by the RMCS D General Manager or their designee.
6. Record Destruction: The State summary of CORI obtained for employment, licensing or certification purposed shall be destroyed once a decision is made to employ, license or certify the subject of the record, other than the requirement for the specific request by the applicant for the DOJ response.
7. Record Dissemination: CORI shall be used only for the purpose for which it was requested.
8. Secure Areas to Receive Information: Reasonable measures shall be taken to locate terminals and fax machines in a secure area to provide protection from unauthorized

access to criminal offender record information by other than authorized personnel. Access is defined as the ability to view criminal offender record information on a terminal or on paper.

9. Record Reproduction: CORI shall not be reproduced for secondary dissemination to any other employment or licensing agency. However, the requesting agency may provide a copy of the DOJ applicant response to the subject of the record. In this case, the record must be kept in a sealed envelope with the applicant's name, and shall not be opened by any person, as this record is only for the applicant upon request of his/her record.

### **UNAUTHORIZED ACCESS AND MISUSE**

The unauthorized access and misuse of CORI may affect an individual's civil rights. Additionally, any person intentionally disclosing information obtained from personal or confidential records maintained by a state agency or from records within a system of records maintained by a governmental agency has violated various California statutes. There are several code sections that provide penalties for misuse or unauthorized use of CORI.

### **AUTHORIZED ACCESS**

CORI shall be accessible only to the COR and/or hiring authority charged with determining the suitability for employment or licensing of an applicant. The information received shall be used by the requesting agency solely for the purpose for which it was requested and shall not be reproduced for secondary dissemination to any other employment or licensing agency.

The retention and sharing of information between employing and licensing agencies are strictly prohibited. Retention and sharing of information infringe upon the right of privacy as defined in the California Constitution, and fails to meet the compelling state interest defined in Loder v. Municipal Court (1976)17 Cal. 3d859.

CLETS Policies, Practices, and Procedures state that any information transmitted or received via CLETS is confidential and for official use only by authorized personnel (section 1.6.4). The California Code of Regulations, Article 1, section 703, addresses the "right and need" to know CLETS-provided information.

### **EMPLOYEE STATEMENT FORM**

All personnel/individuals with access to CORI will have a signed "Employee Statement Form" on file acknowledging an understanding of laws prohibiting its misuse, and acknowledging the criminal penalties for the misuse of criminal offender record information (Penal Code sections 502, 11142, and 11143). **See Employee Statement Form.**
