Re: Thank you for preventing major flooding on our property in record breaking storm.

Hello,

This is to thank whichever employee had the foresight to block the Camino del Sol drains with sandbags ahead of the record breaking storm last month, without diverting that water, the drains are overwhelmed on the uphill side of our property resulting in flooding that moves the big key stones of a wall, pea gravel and decomposed granite. Even with the diversion, we had flooding that did a little damage. We've cut a couple of French drains to manage the inevitable.

We're the only property that benefits from this one effort AND WE APPRECIATE IT!
Very truly yours,
Pamela Haines
