

## MEMORANDUM

Date: April 13, 2020  
TO: Board of Directors  
From: Paul Siebensohn, Director of Operations  
Re: Signs around community reservoirs

---

For discussion per John Merchant's request at the Communications & Technology committee, please see the attached photos.

The committee held a discussion regarding the signage around the community's water supply reservoirs being labeled as lakes is misleading. As Calero, Chesbro, and Clementia are the potable water supply reservoirs for the community, the committee would like the signage around the reservoirs reflect the importance of that fact. They believe the community would be more understanding as to why there is no body contact or pets allowed in Calero and Chesbro if they were aware that was their drinking water supply. The signs have been placed by the Rancho Murieta Association and a discussion would need to take place with them as well. It was also discussed that an Ad Hoc committee could be formed to discuss the details of this further.

Signs around Reservoirs:
