

MEMORANDUM

Date: April 16, 2019
To: Board of Directors
From: Mark Martin, General Manager
Subject: General Manager's Report

OUTREACH/ADVOCACY

March 21, 2019: **Meeting with Roger Ince of County OES on Emergency Planning Roles** – Chief Werblun and I met with Roger Ince, Emergency Operations Coordinator for County OES, to ask follow-up questions on CSD's role in Emergency Operations relative to the primary role of County OES, Sac Metro Fire, and Sacramento County. Mr. Ince confirmed that CSD's role is secondary and in support of the all-risk agencies and that CSD's primary responsibilities during an emergency is to restore the CSD's primary critical functions such as provision of water and sewer services. We are awaiting feedback from Mr. Ince on possible grants and CSD use of such grants. Mr. Ince believed that grants available to CSD would likely be limited to planning related to protection of and restoration of key services CSD provides as a governmental agency. Mr. Ince confirmed emergency situations are very dynamic and thus emergency pre-planning is typically approached in a more general manner.

March 27, 2019: **Stormwater Drainage Concerns** – Conducted site visits during heavy rain downpour event related to two resident stormwater concerns.

April 2, 2019: **NBS – District's CFD 2014-1 Administrator** – Met with NBS senior staff to become more familiar with CSD's general role and responsibilities related to CFD 2014-1 and discussion about delinquencies related to CFD 2014-1.

April 8, 2019: **Met with Developer on CIA Ditch Billings and Other Concerns**– The District submitted a 2-year backlog of CIA Ditch Billings to the Developer in May of 2018. CSD conducted follow-up throughout the past year on these billings. On more than one occasion, the Developer expressed concerns about the billings. Although specific details have yet to be provided to CSD, we expect a meeting within the next few weeks to go through the billings in detail.

April 10, 2019: **Sacramento County Auditor-Controller** – Contacted the County to research the County's Teeter program obligations and delinquency levels as a component of total Teeter assessments. The information from this research is provided as a separate agenda item.

April 10, 2019: **Sacramento Central Groundwater Authority (SCGA)**. Attended Regular Board Meeting. Annual report of the health of the Sacramento Valley – South American Groundwater Basin which is the basin SCGA oversees and into which a portion of Rancho Murieta falls. The good news is the groundwater basin, as of 2018, was in slightly better shape than the 2005 baseline condition on which groundwater conservation and sustainability planning is based. This groundwater basin extends west of Elk Grove and includes Rancho Cordova, Elk Grove and most of Sacramento County and the City of Sacramento south of the American River.
