### DISCUSSION

As the Security Department evolves, we have begun to learn the features of our Security Information Systems. This includes the Applications by Design, ABDI, products for Gate operations (ABDI-CMS) and the Patrol Records Management System (ABDI- Pulse). Over the past month we have participated in training classes to learn how the system operates and how we can generate reports. The report presented today represents the activity of North and South Gate visitor lanes.

We will continue to learn more about the ABDI reporting capabilities and will expand the reporting information.
